

# White Assembly Paste TC 12

## Product description

White Assembly Paste TC 12 is a non-staining assembly lubricant used for the application in food industry, plastic, printing and textile machinery where dark coloured lubricants cannot be used.

## Applications

For assembly, lubrication of machinery and equipment's in textile, printing, plastic industries. It also prevents fretting corrosion.

## Advantages

Excellent shear and mechanical stability • Resistant to ageing • Good resistant to water & other chemicals • Good high and low temperature performance • Service temperature -20°C to +150°C

## Handling instructions

The paste is to be applied by brush, or grease gun. Fill only required quantity. Refer MSDS for more information about safe use, physical & health hazards.

## Technical Properties

Parameter	Value	Unit	Standard
Appearance	Smooth paste		
Base	Mineral & solid lubricants		
Thickener	Lithium		
Colour#	Off-white		
Penetration	265 - 295	mm/10	ASTM D 217
Drop point	> 165	°C	ASTM D 566
Service temperature	- 20 to + 150	°C	

# Minor colour variation is possible but product quality will remain same
