

# Battery Terminal Coating Spray TC 29

## Product description

Battery Terminal Coating Spray TC 29 is a long term corrosion preventative that provides an airtight waterproof seal, curtails battery leakage and extends battery life. The coating will not crack or peel even under severe flexing. Excellent for batteries that are used infrequently or put into storage.

## Applications

Battery terminal coating spray for battery and cable terminals, connections and electrical insulations. Protects against leaking acids and corrosion by providing visible air tight and water proof insulation. Guards against current loss and prolongs life.

## Advantages

Provides a lead-free soft protective coating • Protects battery terminals, cables, and bulkhead connectors from corrosion. • Long lasting, blue film indicates coverage surface

## Handling instructions.

Shake the can well before use, till the movement of steel ball inside the can is audible. Keep away from open flame & heat. Do not store above 50°C .Contents under pressure. Highly flammable material. Check for compatibility before use. Use a brush to remove hard deposits from the chain. Refer MSDS for more information about safe use, physical & health hazards.

## Technical Properties

Parameter	Value	Unit	Standard
Appearance	Blue dry film		
Density	~ 0.80	g/cc	
Film thickness	15	Microns	
Drying time	~ 10	Minutes	
Flash point	< 0	°C	ASTM D 566
