

PTFE Bonded Coating Spray TC 48

Product description

PTFE Bonded Coating Spray TC 48 is a dry film lubricant formulated to provide a long lasting PTFE reinforced durable coating on surfaces to reduce friction, wear and provide releasing properties.

Applications

A white, non-toxic film provides a lubricating medium with very low frictional properties. This is also used as a dry anti-stick film and light lubrication of links, pins, chutes, slides operating in food industries.

Advantages

Dry film lubricant designed to provide life time lubrication for lightly loaded or slow moving, sliding surfaces • It forms a bonded film of PTFE which reduces friction and wear. • Keeps on lubricating even after the coating is no longer visible.

Handling instructions.

Shake the can well before use, till the movement of steel ball inside the can is audible. Keep away from open flame & heat. Do not store above 50°C .Contents under pressure. Highly flammable material. Check for compatibility before use. Use a brush to remove hard deposits from the chain. Refer MSDS for more information about safe use, physical & health hazards.

Technical Properties

Parameter	Value	Unit	Standard
Appearance	White film		
Density	~ 0.80	g/cc	
Film thickness	15	Microns	
Drying time	~ 10	Minutes	
Flash point	< 0	°C	ASTM D 566
