

# Anti-Corrosion Wax Coating Spray TC 72

## Product description

Anti-Corrosion Wax Coating Spray TC 72 is designed to protect the metals from corrosion in hostile conditions. TC 72 forms a dry waxy film for the protection of tools, moulds and machines & it gives a multi metal protection.

## Applications

An anti-corrosion wax coating spray for the protection of finely machined metal surfaces such as tools, dies, moulds, spares, machines, etc.

## Advantages

Clean, tack-free corrosion protection • Quick drying, waxy film protects up to 6 months under indoor conditions  
• Excellent oil and moisture resistance • No removal of protective film prior to operation necessary as compatible with lubricants. • It has the ability to displace moisture from the surface of most metals • The waxy coating is easily cleanable with ordinary solvents.

## Handling instructions

Shake the can well till movement of ball inside the can is audible. Keep away from open flame & heat. Do not store above 50°C .Contents under pressure. Highly flammable material. Check for compatibility before use. Refer MSDS for more information about safe use, physical & health hazards.

## Technical Properties

Parameter	Value	Unit	Standard
Appearance	Cream waxy film		
Type	Semi dry film	g/cc	
Film thickness	50	Microns	
Drying time	~ 20	Minutes	
Flash point	< 0	°C	ASTM D 566
