

# Bright Zinc Spray TC 79

## Product description

Bright Zinc Spray TC 79 is an ideal cold galvanizer that provides permanent protection against rust and corrosion by electrochemically bonding with metal surface. TC 79 has an excellent adhesion to metals.

## Applications

It provides protection for all polished metal surfaces, and on the other hand, forms a fast drying permanent film for all types of paints. The outstanding corrosion protection characteristics show up especially in Electro-chemical corrosion protection, which prevents damages, e.g., scratched surfaces, from rusting after treatment.

## Advantages

For the repair of damaged galvanic surfaces • Excellent oil and moisture resistance • Used as an anticorrosive coating in all types of Chemical / Petrochemical plants, Engineering applications • As an excellent touch-up coating for the galvanized pipe manufacturers for threaded connections and surface touch-ups

## Handling instructions

Shake the can well till movement of ball inside the can is audible. Keep away from open flame & heat. Do not store above 50°C .Contents under pressure. Highly flammable material. Check for compatibility before use. Refer MSDS for more information about safe use, physical & health hazards.

## Technical Properties

Parameter	Value	Unit	Standard
Appearance	Grey film		
Type	Dry film	g/cc	
Film thickness	50	Microns	
Drying time	~ 20	Minutes	
Flash point	< 0	°C	ASTM D 566
