

# Red Insulating Varnish Spray TC 80

## Product description

Red Insulating Varnish Spray TC 80 is an effective fast drying product for protection of all electrical and electronic components. A tough flexible coating that protects and insulates exposed wire, components and electrical windings.

## Applications

TC 80 is used for the protection of electrical connections, switches, terminal boards, and motor windings from humidity, fungus and corrosion.

## Advantages

Enhances electrical equipment life spans, prevents failures breakdowns • High dielectric strength • Excellent oil and moisture resistance • Class B, flexible, tough, high dielectric strength arc & tracking resistant finishing electrical varnish. • Penetrates, coats, insulates & seals in one step • Excellent finish – tough, flexible, glossy, and durable red coat.

## Handling instructions

Shake the can well till movement of ball inside the can is audible. Keep away from open flame & heat. Do not store above 50°C .Contents under pressure. Highly flammable material. Check for compatibility before use. Refer MSDS for more information about safe use, physical & health hazards.

## Technical Properties

Parameter	Value	Unit	Standard
Appearance	Red dry film		
Density	~ 0.90	g/cc	
Film thickness	50	Microns	
Drying time	~ 20	Minutes	
Flash point	< 0	°C	ASTM D 566
